

The sun's eyes are painting fields again.

Its lashes with expert strokes
Are sweeping across
the land.

A great palette
of light
has embraced
This earth.

Hafiz,
if just a little clay and water
Mixed in His bowl
Can yield such
exquisite scents, sighs,
Music -
and whirling forms.

What
unspeakable
wonders
must await with
the commencement
of unfolding
of the infinite number
of petals
That are the Soul.

...God has a root
in each act and creature
from which He draws
His mysterious
Divine
life.

His
eyes
are
painting fields
again...
